Guildford Travel Club presents Audrey Olley: *Snow Monkeys and Cranes of Japan*

Audrey is a past President of Guildford Travel Club, and has given talks to the club on her extensive travels.

Few westerners are fortunate enough to experience Japan in winter. For photographers of wildlife, people and culture, this expedition was full of snow filled landscapes punctuated by troops of dancing red-crowned cranes and bathing snow monkeys.

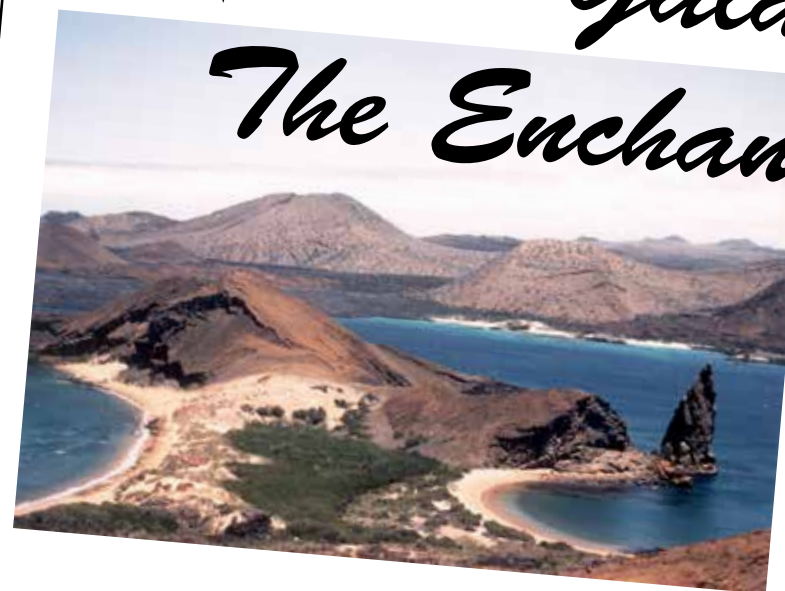

The island of Hokkaido is a dramatic snow clad winter wonderland complete with an array of wildlife.

In 'Hell Valley' the sight of Japanese Macaques sitting in steaming pools surrounded by snow covered mountains was one of the great highlights of the tour.

We also visit Kyoto and its temples, look at Japanese food, its Ryokans (traditional inns) and experience the Onsen (hot baths) with and without the monkeys.

Guildford Travel Club presents Audrey Olley: *Galapagos – The Enchanted Islands* 17 March 2004

Audrey first visited the Galapagos in 1978 and returned in 2002, cruising on a small motor yacht. She was interested to see what effect increased tourism has had on the islands, and the talk includes slides from both journeys.

Audrey takes us on a journey to meet the unique wildlife of these Islands – giant tortoises, marine and land iguanas, sea lions, and both blue and red footed boobies.

Audrey joined the Guildford Travel Club shortly after it was founded in 1966, and has spoken to the club on many occasions, having travelled to most parts of the world, including 4 trips to Antarctica.
